- Track name search on audio CDs
- Firmware Upgradable
- 40 GB Hard Disk on DP-1504
- 80 GB Hard Disk on DP-1508

Based on the DP-1500, the DP-1504 includes a 40GB Internal Hard Disk. This enables the user to store Audio/Video/Picture content on the DVD Player. This action can be done from the DVD drive or with PC-Link. As the DP-1500, the DP-1504 comes with Ethernet and Wireless Connections enabling PC-Link and WebRadio.

The PC Card Slot placed at the back of the player, also adds a new feature: Wireless Connection. No more ethernet cables in the way, thanks to a simple setup on the player. The Access Point and PC Card (IEEE 802.11b) are an extra accessories. The difference between these players resides in the Hard Disk where the DP-1504 comes with a 40GB Hard Disk and the DP-1508 comes with a 80GB Hard Disk.

Having a hard Disk on the player will enable the user to store Audio/Video/Picture content on the DVD Player, up to 58 good quality DivX® Films for the DP-1504 and up to 117 good quality DivX® Films for the DP-1508. The DP-1504/08 players also comes complete with the standard CD/MP3, Ogg Vorbis, DivX®, XviD, Jpeg, CD-RW and DVD+-RW playback.

Applications:
- Video Distribution Control for Luxury Homes
- Video Distribution Control at conference rooms in Luxury Offices
