

## Sub Woofer Speakers

USA Product with Reputation known since 1989, Specialized and designed as an innovative speaker for multi-room audio Home System.

### Awards

The perfect compliment to TheaterPoint speaker systems, this 12" powered Subwoofer provides 300 watts of powerful bass that you can feel with every bone-rattling explosion.

An excellent choice for both surround sound as well as stereo audio, the THP1200SW features a highly efficient digital power amplifier and all the controls you need to get the perfect amount of bass for any room.

The super quick, long throw 12" driver, with its composite 3-layer Kevlar/aluminum honeycomb cone, large 2.5" fiberglass voice coil and double-magnet design is more than capable of moving the large volumes of air necessary for accurate bass response from both movies and music. An audiophile quality 300W Class-D digital amplifier ensures that the driver's characteristics are taken full advantage of. The end result is the reproduction of powerful, room rumbling special effects in movies or the tight, thumping bass in certain music.

- Applications:**
- Home Theater in Luxury Villa
  - Home Cinema Experience
  - Room sound optimization in Luxury Offices
  - Surround sound efficiency in Grand Hotels, Cineplex Cinemas

**Model:** SH-481

**Part #:** Elan THP1200 Speakers
