- requires PreAmp Controller)
- Extensive Keycap Options Allow Each Keypad To Be Custom Configured

Regardless of whether you have a simple stereo receiver or an intricate multi-zone audio system, the Z•Pad features and design guarantee love at first touch! Logical key placement and labeling make this keypad as easy to use as a handheld remote....and it never disappears!

Decora® insert design and easy-to-recognize molded keycaps portray a subtle, yet versatile profile that works well in any decor. Solid, tactile micro switches give instant feedback when keypad buttons are pressed. Assorted keycap options allow "customized" labeling for source and custom-programmed function keys.

The Z•100 Intelligent Keypad offers basic 16-key control of system and source equipment functions in an economical single-gang design. Specific macro keys power up your source equipment and then issue "disc select" and "play" IR commands. The real benefit of this basic offering is one-touch access of your most favorite music. It's that simple.
