

Sub Woofer Speakers

USA Product with Reputation known since 1967, has pioneer in the multi room audio industry, that is why it is recognized as preferred speakers for audio distribution system world wide.

Awards

Whether for big-screen home theater, serious music listening or casual, family-room relaxation, you can't have truly great sound without great bass. And to achieve great bass you need to deploy the right tool for the mission: a powerful, deep-reaching subwoofer that's been carefully engineered for optimal low-frequency reproduction.

This 12" freestanding subwoofer with 200 watt amplifier offers lifelike sound with flexible dual tuning for home theater and distributed audio systems. It is compact and designed to fit conveniently in any room while delivering deep bass.

The symmetrical port design balances driver and port interaction for smooth response, even at high levels. Asymmetrical internal bracing reduces cabinet resonance for extended bass and lower distortion.

- Applications:**
- Home Theater in Luxury Villa
 - Home Cinema Experience
 - Room sound optimization in Luxury Offices
 - Surround sound efficiency in Grand Hotels, Cineplex Cinemas

Model: SH-528

Part #: Russound R12DT Subwoofer

Features

- Compact and attractive cabinet design occupies little floor space
- Engineered with a 12" front-firing driver for extended bass with low distortion
- Audio controls and dual tuning ports allow the user to easily tailor the bass response for either home theater or music
- Outstanding performance per dollar makes this an excellent value
