

Professional I-Bus Lighting Switches

Contrasts merge to form a unique unit. Beauty begins beyond the usual appearance and where convention ends. Even in rooms. The solo® range combines contrasting colours and forms to create perfected harmony. A stylistic class for everyone who likes and lives for something special.

Nature is inspiring with the highly expressive, clear colours of its precious stones and metals, rare minerals and natural substances. alpha exclusive® captures these impressions and combines them to form a composition full of strength and energy. The perfected design is appealing with its classical and valuable charm. The colour shades set exclusive and unmistakable accents in all the rooms.

- Applications:**
- Lighting, Dimming, Automation and Energy Saving for Homes
 - Lighting, Dimming, Automation and Energy Saving for Offices
 - Lighting, Dimming, Automation and Energy Saving for Hotels
 - Lighting, Dimming, Automation and Energy Saving for Schools
