

## Digital Dimmer – Remote Controllable

Control your single infrared dimmer at the touch of a button. Remote can switch lights on and off, as well as dimming them without leaving the comfort of your chair.

Rania is a remote controllable switch which allows you to change your lighting settings from the comfort of your chair or from your cozy bed. To save the lighting settings all you have to do is hold the silver button for a few seconds.

Rania is compatible with most of the learning universal remote controllers. New universal dimmer controls electronic and magnetic low voltage where load is unknown.

- Applications:**
- Lighting and highlighting interiors for Luxury Homes
  - Lighting and highlighting interiors for Luxury Offices
  - Lighting and highlighting interiors for Luxury Hotels
  - Lighting and highlighting interiors for Luxury Schools

**Model:** SH-603
