

In Ceiling Speakers

High-efficiency 2-way ceiling speaker for enhanced performance

High-efficiency 2-way ceiling speaker for enhanced performance. It features a 166 mm coax chassis that provides linear frequency response. The UP 14/2 should be used in high-ceilinged rooms (max. 6 m) with medium noise levels. The unit can be installed without the use of tools. The assembly is secured by three clamps and the front ring is screwed on over a bayonet connection. The EGT 14/2 housing for concrete ceilings is available as an option.

- Applications:**
- Audio for Luxury Homes
 - Audio at Luxury Offices
 - Hotel Banquet Halls Audio System
 - Smart School Audio Media Sharing and Distribution
