

## STEREO POWER AMPLIFIER

# SUNFIRE SIGNATURE 600-*two*

“In recording after recording, it rendered details with a precision, clarity and transparency that were wondrous.” THE ABSOLUTE SOUND

The Sunfire Signature 600-*two* Stereo Amplifier is our very best two-channel amp, combining more than 25 years of Bob Carver's experience and patented technology. We call this amplifier our "Signature" model because Bob personally signs each unit's faceplate.

The Sunfire Signature 600-*two* Stereo Amplifier has double the output of the Sunfire Amplifier and is capable of driving any loudspeaker, virtually regardless of impedance or power requirements.

- ▶ **600 watts rms continuous per channel, into eight ohms from 20Hz to 20kHz with no more than 0.5% T.H.D.**
- ▶ 1,200 watts rms per channel into four ohms
- ▶ 4,000 watts one ohm rms per channel – time-limited basis
- ▶ Two output options: current source for a warmer, more open tube sound or voltage source for tight response
- ▶ Intrinsic frequency response 1 Hz to 80 kHz
- ▶ Signal present auto-on switch senses input signal on any channel and automatically powers up
- ▶ 12VDC trigger input with 1/8" mini jacks as well as plug-in screw-terminal strip
- ▶ Balanced XLR and unbalanced RCA inputs
- ▶ High quality all metal five way binding posts
- ▶ Hand-signed by Bob Carver
- ▶ Five-year parts and labor warranty
