

Multi-Room Matrix Audio Controller

Scotland product which is recognized as the world-leader in pitch-accurate sound reproduction, can be found throughout the world

The CLASSIK Music is a high quality, all-in-one system with compact CD player, AM/FM tuner and amplifier with two distributed audio functions designed to deliver power, performance and perfect sound to any room of the house.

Packed full of features and providing superb sound quality and remarkable value for money, the CLASSIK Music combines high quality CD and radio sources, a very flexible control system and powerful stereo amplification in a single, discreet and compact package.

The CLASSIK Music provides a simply installed multiroom audio system solution, by connecting a single unit in your main room to up to four additional units with pre-terminated CAT5 cable. This enables a secondary room CLASSIK to automatically receive and control sound from the main room CLASSIK in addition to control of the local CLASSIK sources.

For even greater flexibility the CLASSIK Music provides full Linn KNEKT multi-room capability via an optional Room Control Unit installed and programmed by a qualified Linn custom installer.

- Applications:**
- Audio Distribution for Luxury Homes
 - Audio Distribution at Luxury Offices
 - Hotel Banquet Halls A/V System Distribution & Control
 - Smart School Media Sharing and Distribution

Model: SH-512

Part #: Linn Classic Audio Controller

Features

- Superb audio sonic performance
- AM/FM Tuner with 80 station presets and adjustable threshold control
- High powered power amplifier (75W into 4 ohms) with two sets of speaker sockets per channel
- Pre-amplifier with 3 external line level audio inputs, a record output, an external preamplifier output and a new CD digital output
- Plug and play multi room capability that enables a Linn Classik to be DIY installed and inter-room connected to up to four additional Classiks
- Complete Linn Knekt multi-room capability that enables a Linn Classik to operate as a main room driver or a local room receiver within a Linn Knekt system
- Fully remote-controllable

Specifications

Power consumption:.....
 325W maximum in normal operating mode
 25W typical use <7W in standby
 Mains supply:
 100V, 115V or 230V versions
 Nominal voltage: +/- 10%
 Distributed audio: 4 x RJ45 sockets
 Tuning resolution:
 FM TUNE mode- 50kHz;
 FM SCAN mode- 100kHz;
 AM TUNE mode- 1kHz;
 AM SCAN mode- 10kHz (USA), 9KHz (Japan & Europe);
 Presets: 80 user definable
 Signal strength: 0 to 50 scale
 Pre-amplifier inputs
 Tape/Aux1/Aux2: -10dBV (sensitivity)
 100 ohms (input impedance)
 Outputs :
 Tape output equal to all input levels; CD
 Digital output
 Output impedance: 100 ohms;
 Preamp output: volume range ∞ to +10dB; Output impedance: 150 ohms
