Offers a complete choice of seating designed specially for lecture theaters, meeting rooms, conference centers. Facilities such as translation and voting are incorporated. A foldaway writing tablet which addresses the needs of modern high-tech, multitasking audiences offering laptop space, power points and internet connections.

The tablets are attached to beam-mounted seats by means of the company's triangular prismoid swivel joint. This permits the tablet to be raised into its operational position with one easy hand motion. The heavy duty, die-cast aluminum structure allied with the stainless steel swivel joint provides the strength to support an A3 size tablet suitable for laptops, computers, conference binders and for use by left handed people.
