Cyber Internet Phone System

A unique signature quality that is built into every phase, from design to engineering to manufacturing start to finish, intrinsic quality is the reason Internet Phone System is recognized as the Multicom Leader globally

Model: SH-616

Part #: Commax Cyber-1500

Features

- Use the prior electric wires
- Make sure that remote control, telephone module and PC in the home
- Capable of control and checking through telephone and internet in outside
- Capable of extend and interface
- Capable of 64 units per one control cell / 1.024 cell /1.024
- Search Information
- Search Stock Information
- Search Phone Number
- Search Internet
- Life Convenience Control
- Scheduling Control
- Life Information
- Official Announcement
- House Data Management

Specifications

Screen Size: 15 Wide TFT-LCD
Horizontal Resolution:..........
More 650TV Lines
Input Signal: ....
Video : 0.714Vp-p(Video Composite Signal 1.0 Vp-p)
Frequency Range: ....
Synchronous Signal : 0.286Vp-p
Horizontal Frequency: 15.75KHz±500Hz
Vertical Frequency: 60Hz±5Hz
High Voltage: 25KV±1.5KV
Converse: Loss 0.3mm
Operating Ambient Temp: 0~90%
Operating Ambient Humidity:
10　~+50　(14　~122　)
Power Consumption: 75Watts
Power Source: ....
100~250V, 50/60Hz(Free Volt)

Dimensions

Size: 380W x 350H x 380D (mm)
Weight: 10.0(kg)

Applications:
- Connection and Communication with visitors in Luxury Homes
- Communication internally with staff and externally with clients in Luxury Offices
- Efficient Customer Room service in Smart Hotels
