VIA!® dvdj

DVD Controller

All Your Movies …

With the VIA!® dvdj your entire DVD collection (up to 1600 of them!) becomes an easy-to-sort-through, easy-to-view library of Action, Comedy, Drama, Romance and more.

Right Before Your Eyes …

View the cover art of all your DVDs right on a VIA! Touch Panel. Browse through your movie collection by Actor, Director, Genre, Title, Rating or Year.

And Right At Your Fingertips …

Every movie you own is just a touch away using the full-color, easy-to-navigate graphical user interface the VIA!dvdj displays on every VIA! Touch Panel in your home.

Just When You Thought You've Seen It All

The Controller

The VIA!dvdj DVD Controller allows you to manage, select and view your entire DVD collection from just about anywhere in the home. It's called a Controller because the VIA!dvdj can control up to four Sony DVP-CX777ES 400 disc DVD changers. But it's how you control these changers that makes VIA!dvdj a one-of-a-kind home entertainment component . . .

The GUI!

Imagine simply pushing one button to access all your DVDs automatically. Picture seeing your entire movie collection instantly presented on screen in your home entertainment room or home theater (or anywhere else in your home). Imagine never having to even think about where discs are located in your changer. With the VIA!dvdj, playing with the full-color graphical user interface can be as much fun as the watching the movie itself!

This sleek-looking, easy-to-navigate GUI, displayed on every VIA! Touch Panel or TV in the house, lets you sort through your DVD library alphabetically by Title, Director, Actor, Genre, Rating or Year. It also lets you view the DVD-case cover art of all your movies and provides you with up-front movie information such as cast, director, year, genre and rating of the movie you've selected. It also gives you all the DVD changer transport controls you need, laid out in a user-friendly format that doesn't leave you guessing which button to press next. It's cool! It's fun! And it's easy to use!

The Changer

Sony's ES line of high-end audio/video products are renown for their quality, and ELAN is proud to have teamed up with Sony to offer the DVP-CX777ES 400 Disc DVD Changer as the companion piece for the VIA!dvdj. Each Sony changer will hold up to 400 DVDs. Each VIA!dvdj can control up to four Sony changers. That's a whole lot of DVDs! (Sony DVD changer sold seperately.)

VIA!dvdj...Access All Your DVDs With Ease
