Manage your digital home lifestyle easily, conveniently and affordably

Companion by CorAccess

Companion manages **all aspects of your new digital home lifestyle** on convenient, easy to use, elegant in-wall and handheld touch/appliances.

Whole Home Music: Select from networked stored digital music, play jazz or blues from iRadio stations, start the movie in the theater or simply listen to your new CD in the kitchen, on the patio, in the master, wherever and whenever. Control all your music/media needs with Companion.

Home AutoMation: Easily manage all home systems like scene lighting, environment, security, camera monitoring, gate, shades, spa, irrigation, limitless possibliites at your fingertip...select "bedtime" and lights dim, security arms, music stops, garage door is closed...customized for you.

Network Benefits: With broadband you gain instant access to integrated morning commute cams, weather forecasts/radar, or browse for recipes, stock quotes, sports and much more!

Convenience like never before and because Companion is all digital, it improves with age....just ask your professional dealer. Want Intercom? Ready for mobility? Control the home from a TV? Simple. All the benefits of home management on affordable touch/controllers. Award-winning designs for in-wall, desktop or handheld wireless use thoughout the home. Ideal for both new and retrofit installations. **Why would you pay far more for systems that do much less?**

Enjoy the benefits of an integrated home lifestyle today with Companion by CorAccess Systems. With years of experience, 7-time award-winning interface designs, and innovative home systems, the dedicated team at CorAccess assures you enduring value with limitless

Choices in convenience...

Companion

Compact photo quality in-wall interface ideal for the front door or bedside table as a replacement for the security keypad. 5 instant access backlit buttons for "all lights on" and more. 2 system status lights, 4 CCTV inputs + IR. Audio enabled and broadband ready.

Companion

Optimal photo quality in-wall interface designed for the kitchen, study, den or wherever you need fast access to whole home systems and the internet. Stereo enabled and broadband ready. 5 instant access backlit buttons for browsing, keyboard, "all lights on" and more. Analog camera CCTV monitoring inputs and digitizer for the home Companion network.

Companion

Elegant Wi-Fi handheld TouchController ideal for the family room, cooktop or wherever. Ultralong battery life, wakes up with touch or movement. Audio enabled. Internet access via a browser toggle with an onscreen keyboard/stylus.

Companion

Now enjoy the convenience of home management from your PC's and TV's. Same interface look and feel. Same whole home management benefits. Control on a TV via a wireless mouse.

Relax... you're in control

AutoMate

Seamless integration with popular lighting, HVAC and security panels. View whole home status, manage scene lighting, arm the security system, or HVAC zones easily and from any room in the house or from remote. With custom macros you can manage all at once like: *All lights on, Vacation,* or *Party.* Designed specifically for ease of use and convenience whether on the in-wall, handheld Companions or the TV and PCs in the home and from remote.

PhotoMate

View the security cameras, digital photos, local traffic, weather forecasts/radar or add your own network cameras and view in full screen or framed mode, one or four at a time. On demand or as a screen saver. Add online CorPhoto and allow sharing of your Companion screen saver with extended family.

AudioMate

Select/play digital music or manage the multimedia room from the sofa... or from any room. View your stored media by artist, album, song, playlist or select a room to play it in. Pick an online iRadio station to play in the kitchen or queue the movie, screen, drapes and lights in the theater. Unlimited sources and zones! Companion is all the convenience, control, and elegance you need...where you need it.

Communit

Fully integrated community solutions for MDUs and planned developments including gated/door entry, interactive service Intranet with conceirge/ valet, near-to-me service, mixed use tenant integration, live movie, traffic, news feeds, resident billing service, HOA information and communication...easily and conveniently and on the same interface you use for in-home lifestyle management.

CorAccess HomeManagement
AudioMate

CorAccess AudioMate extends the interface to include whole home media control. **Now enabling plug & play touchable access to home audio** entertainment platforms like Request Multimedia's ARQ media server anywhere in the home on Companion interfaces from CorAccess.

AudioMate can even be provisioned remotely saving you hours of programming and integration. In addition to existing services like AutoMate/PhotoMate, now you can access your stored audio media on one consistent, convenient interface. No programming required…It only gets better!

-Standard Audio Player controls: Shuffle/Repeat/etc
-Multiple views for control: playlist-centric or control-centric
-Multi-Zone Audio Control
- Digital Radio – Use the ARQ as a digital radio station to play locally on the Companion or setup your own Internet radio favorites. Use the on-board speakers or audio out on the Companion 6 or Companion 10 to connect room/zone speakers.
-AudioMate functions independent of other AutoMate/PhotoMate functions and does not affect other interface communications, meaning interruption-free listening.

CorAccess HomeManagement
CorPhoto Online Premium Services

CorPhoto.com is a natural extension of the already powerful PhotoMate Digital Photo frame**. Now users can share photos with friends and family from around the world** and display those galleries on Companions easily and instantly!
