

## Find your car no matter where it's gone to

In the event of your vehicle being stolen, C-track Secure will immediately initiate the vehicle recovery process.

- One call to 0860 CTRACK (0860 287 225) 24/7/365 is all it takes
- C-track Secure senses and proactively reports tampering with its power supply, in which case a back-up battery takes over
- Park your vehicle, activate "watchmode" from your cellphone and you will know if your car moves
- The unit will track vehicle movement even if the ignition is off. It is also traceable using the GSM networks as a back-up
- Should your vehicle move out of your pre-defined area, a warning SMS is sent to your cell phone and the DigiCore Support Centre is alerted.
- Should you choose, an immobilisation switch can be fitted to your vehicle allowing the DigiCore Support Centre to immobilise your vehicle remotely and safely in the event of a hi-jacking or theft
- The unit comes with an optional, remote panic button to send your location to DigiCore Support Centre to let them know you need help

**With C-track Secure, you can be sure that your vehicle will be recovered**

## 3 Easy steps to install C-track Secure

- Complete the C-track Secure application form, available from this dealer, visit [www.digicore.com](http://www.digicore.com), or by calling 0860 CTRACK (0860 287 225)
- Upon receipt of your application, you will be contacted by DigiCore to arrange installation
- Upon completion of installation you will be issued with an Installation & Insurance Certificate, a User Manual and a C-track Secure Internet application CD

Another innovation by

**Who would you trust with your vehicle?**

**How about a world player in the vehicle tracking and stolen vehicle recovery sector?**

**With C-track Secure you get so much more than an ordinary vehicle tracking, you get a vehicle tracking system that works for you!**

**C-track Secure is backed by JSE listed DigiCore Holdings, a global player in the vehicle tracking & fleet management systems arena with over 15 years track record. Today, the C-track range is delivering tangible benefits to customers with in excess of 150,000 installed systems in 21 countries on 4 continents.**

**We know that the most valuable service that we can give is the support that we give our customers. With the DigiCore Support Centre that operates 24-hours a day, 7 days a week, for any query or emergency, you can be sure of complete peace of mind wherever you may go.**

## **Know your car's every move – even when you're not around!**

With C-track Secure, your vehicle's location is easily accessible via cell phone or the internet, 24 hours a day, 7 days a week!

- One SMS is all it takes to be notified of your car's exact whereabouts.
- Keep track of your car with detailed internet maps
- Should your vehicle move out of your pre-defined area, a warning message will be sent to your cell phone and the DigiCore Support Centre for immediate response.
- Replay your vehicle's last 24 positions and get detailed trip-by-trip reports of its activities and information such as maximum speed.

**With C-track Secure, you know exactly what your car gets up to when you're not around.**

## **So much more than just an ordinary vehicle tracking system**

When you fit a C-track Secure vehicle tracking system to your car, you get more than just stolen vehicle recovery. You get 100% peace of mind!

- The C-track Secure unit fitted to your car self-tests daily to ensure that it is working. If it's not, a call is logged and the client is notified immediately.

- C-track Secure is insurance industry approved (SAIA)
- Vehicle location is pin-pointed within an accuracy of up to 4 metres using GPS satellites.

**Since its launch, C-track has already fitted more than 150 000 units for satisfied customers all over the globe!**

## **A tracking system that works for you**

If you use your car for business, your C-track Secure system will work for you.

- SARS tax returns are made easier by the elimination of manual logbooks
- Internet reports allows the driver to determine whether the trip is business or private by using an electronic logbook
- The logbook has been approved by the South African Revenue Service

**With C-track Secure, managing your business mileage is easy!**
